# Standard Formula Calculator & Quantitative Solvency II Reporting

HIGHLIGHTS OF OUR SOLUTION

1 **Calculates and assembles** – SCR, MCR, Own Funds, Economic Balance Sheet, full Quarterly and Annual Solvency II Reporting

2 **Absolutely transparent and traceable** – from the inputs through all the calculations to the final reporting

3 **Data quality** – no duplication of input values, data dictionaries, possibility to check all the data, formulas and data flows

4 **Fully documented** – thorough description of inputs, outputs, user and technical manuals

5 **Fully automated** – once you have the input data the rest is done automatically, even QRT in XBRL

6 **Fast implementation** – all you need is to prepare the input data in MS Excel
